

Customer Case Study

Ruchi Group of Industries

Ruchi group of industries are now secured with Smart I's Integrated Access Control Solutions.

Ruchi Group of Industries (Ruchi Group) is a well-known industrial group based in Indore, Madhya Pradesh with its various manufacturing units located dotting the industrial map of India. The group has its corporate headquarters in Indore, with offices in Mumbai, New Delhi, Calcutta, Chennai and other major business centers in the country. The Group's business interests vary in different products. It has manufacturing and trading facilities of Soyabean products, Oils and Fats, Agri-business, Cold Rolled Steel, Galvanized Steel, Color Coated Steel, Tor Steel, Alloy Steel etc.

Requirements

Ruchi Group of Industries has various offices and depot in all over India. They required a secured IP based access solutions which would give them a highly se-cured environment; to handle the multi-locations site across India with multi door controllers as well as single door controller. They required a solution which could be integrated with

ERP System in Oracle database. Ruchi Group has multiple companies so system was to be capable of maintaining the information & generate various reports i.e. companywise / employee wise/location wise/department wise, etc.

Solution Offered by Smart I

Ruchi group required a complete integrated access control solution, Our System integrator Eagle Techsec Communications India Pvt. Ltd suggested them Smart I's integrated access solution for below advantages of smart I over other Access Solutions providers.

- Complete Integrated Access control solution at central location
- Single advance software required with Oracle database for maintaining unlimited employee at central location
- Solutions are fully capable for integration with any third party ERP/Time & Attendance system.
- Various scalable controllers available as per requirement from one to multiple doors
- Value added customized solution can be provided to client as per their requirement
- Excellent support and service

Integrated Access Control Solutions

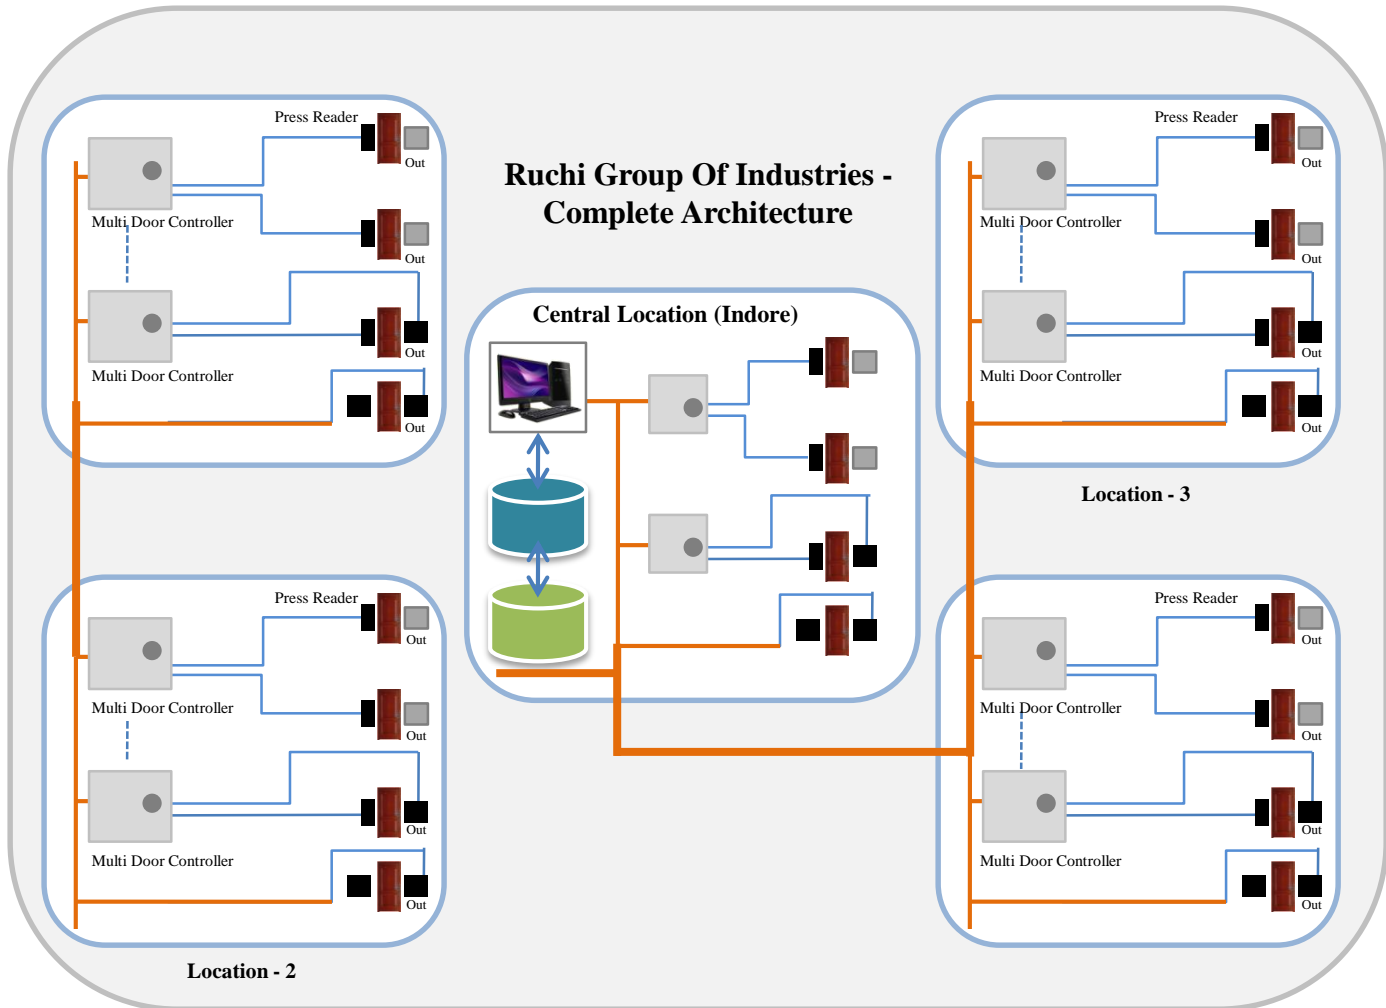

Smart I has deployed 2 door (2 Reader) IP based controller with smart card readers in all 40 locations of Ruchi group. Access Management software is installed at central location (Indore) and all controllers from every location are connected to the software over lease line. Employees' cards activation, deactivation, data downloading & Report generation activity is done at central location. The Time & Attendance is integrated with ERP System for further salary calculation of employees. All security/authorization decisions are taken by controller itself. The systems has many access control features for restricting the entry of unauthorized person i.e., Access Level, Time Zone, Anti pass back, etc.

..... At Ruchi Soya users' cards activation, deactivation, data downloading & Report generation is done at central location. From central location they are managing 40+ locations security".....

After the successful

Smart I deployed integrated access control solutions which are commissioned by our system integrator Eagle Techsec Communications India Pvt. Ltd. The site has completed 4 years of successful installation. Ruchi Soya is expanding its locations very rapidly. Every new location is getting added to Smart I's central Software. The expansion of the devices is happening very smoothly due to Smart I's robust, reliable and simple system.
